## PROJECTS

### Learn to Earn Training — *An online content creation for-profit training*

The goal was to equip undergraduates and fresh graduates with basic skills such as photo-editing, graphic design, and online marketing to sell digital or physical products on digital media channels. I got over 100 registered attendees in less than 2 weeks. The high point was going through the process with the team and getting positive reviews from the attendees with a winner emerging at the end of the event competition.
